CD Business Cards & Custom Shapes

A CD Business Card is the single most important marketing and promotional tool you can have. Showcase your company, products and services in a whole new way and make a real impact on everyone you hand one to.

Sonarus offers five standard molded cards styles as well as custom shapes. The size of a standard credit card, CD Business Cards will run in any CD-ROM drive and hold up to 180MB of data.

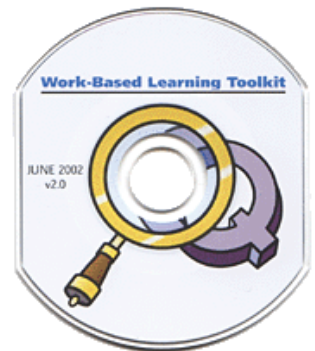

With the ability to turn your mundane printed paper documents into a fully interactive presentation with video and sound, the CD Business Card is a dynamic marketing tool that can help you increase your sales and reduce overall marketing costs.

Eliminate the need to carry heavy brochures, bulky videos and unnecessary paperwork by putting all your marketing material on a CD Business Card... and carry it in your wallet.

Imagine the possibilities:

- ◇ Industry: Brochures and catalogues
- ◇ Manufacturers: Product demonstrations
- ◇ Artisans: Portfolio presentations
- ◇ Real Estate: Virtual 'walk through'
- ◇ Corporations: Training materials

Starting An Order is remarkably easy. Just call us and a friendly and knowledgeable Sales Representative will guide you through a step-by-step process for getting your project on the go. Sonarus will ensure that your order is processed without delays and to your expectations.
